

APRIL 2020

OUTLIERS' NEWSLETTER

WHAT WE'VE BEEN UP TO

Hello from the Outliers' Expeditor, Julie!

As many of you know, Ben and Rebecca are making their way north to their home in Alaska.

Ben is driving Denny and Rebecca is driving her mom's motorhome, which means they really don't have the time or bandwidth to do a newsletter until they get home.

They didn't like the idea of leaving you hanging, so they asked me to send you a quick update.

Rebecca started writing to you a few days ago, so we'll start with that...

Writing these newsletters each month only amplifies how quickly time is going by. It always feels as though I've just finished the last letter when it's time to write to you again.

Well first of all, we hope this newsletter finds you and your loved ones safe, happy, healthy and well. What a strange month for the planet, huh?

Life has changed pretty dramatically in the past 30 days. Here's to hoping it's short-lived and we can get back to status quo, soon!

We left for Mexico on March 2, 2020, and today as I write this message it's April 5. In the past few days we have driven the Mexico 1 back north to the US and now continue our journey north in an effort to return home to Alaska.

We feel as though we've been in a bit of a bubble down here on the Baja and we've driven back into a world we don't recognize - empty highways, empty parking lots and a whirlwind of mask-wearing, glove-wearing chaos.

We are grateful to have Denny, our home on wheels, to keep us safe and cozy.

On a happier note before the chaos of current events, we had an amazing time on the Baja and our only complaint is that it never lasts long enough.

We camped on beaches, went snorkeling and fishing, ate tacos, slept with the ocean breeze blowing through the windows and met fellow travelers with whom we shared great stories.

It was truly blissful.

Today, Ben, Rebecca, and Rebecca's mom are all poised to ~~cross the border into Canada.~~

They've prepped their rigs for the colder weather and have rested up for the push through Canada.

They don't know if they'll have to quarantine for 14 days in Canada or if they can just go straight through. Oh yes. They've called the border station and were told it can depend on who they talk to as to what will happen.

There's a lot of unknown in the world right now and this is just one of the many.

They'll update all of us when they can via Facebook, Instagram and YouTube...and I suspect next month's newsletter will be full of the details of their journey home.

In the meantime, scroll down to the next page so you can binge-watch their videos from March and please keep up the encouraging comments and well-wishes on their social media. They really do appreciate all the support you've been giving them!

On behalf of Ben and Rebecca, be safe and be well.

~Julie
